

Global Neurosurgery Fellowship

Barrow
Neurological Institute

Franke Global Neuroscience
Education Center

Barrow Neurological Institute is seeking one American board-eligible or board-certified neurosurgeon for a one-year or two-year fellowship in global neurosurgery starting in July 2023 or July 2024.

This fellowship is an integral part of Barrow's global initiative to promote excellence in neurosurgical care worldwide. The fellow will develop a firm academic and experiential foundation in neurosurgery to treat globally diverse patients.

The fellow will be involved in clinical care, teaching, and research in Moshi, Tanzania, at the foot of Mt. Kilimanjaro, and in Phoenix, Arizona. This fellowship includes salary, benefits, travel, housing, and language and cultural training. It provides the opportunity to pursue a Global Health Management certification and an MBA concurrently.
